

# A PLAN FOR OVERTON PARK GOLF COURSE

MEMPHIS, TENNESSEE

## THE VISION:

The revitalized Overton Park Golf Course will be a playground for juniors and golfers of all skill levels. With improved drainage, shaping, and newfound strategic interest, these holes, which wind through the old growth forest, will introduce a new legion of players to the fundamentals of golf architecture that can be traced on a common thread through the world's best courses. With the addition of over ten acres of native grasses, the course will seamlessly blend into the forest and provide habitat for a diverse range of bird species. A Children's Putting Course will set the tone for the new layout that will seek to reclaim its rightful and historic place as the home to one of America's largest junior tournaments.

## A CARD OF THE COURSE *From Back Tees*

Hole	Yards	Par
1	290	4
2	135	3
